7/24/67 - Warren Thompson - Jacks law secretary

Mrs Lingle's note missing from 399 is saying "a grain and a leaf" removed from limit - limited out - Chest & thigh - Shoulder and rear Thomas's grains in limit.

Six months ago Specter memo denied, we can't open 9/15 - re staff interviews with Eisenberg around

Inside front cover

Defense of Commission on single shot window
"Best eye-witness" - Bugliosi!
He began this by stressing of "bad evidence" + Arlen importance a "short sound" - unbelievable re weapon.
Assumes ammo started is used

If the first shot hit JFK in back, impact from the 6th floor window, & was at 45-60° angle (FBI) how can he account for evidence angle was about 15° in body?
How about Hughes film showing movement in limousine
How can he say first shot not before 210? Zap - he likes "shows exit point where ammo is hit" only if by a single bullet only
Test on Connally angle to 6th floor window not approximate to JFK first wounding in back
What happened to south-floor assassin?
Commission did not know rear damage target? DS did.
Shot before 210 "unlikely" - when hard evidence is that it happened. His only current argument it is based on 6th floor source.
Frame 190 - says CBS is not the first & Zapruder discovered it "a year ago" - no mention of first publication & part of context in that examination that all shooting came from motion to effect is shifted. This his main is

from Zapruder alone. Hoffa with them Ruby like Will is #5, But 3 men etc
CBS's info not: "scientific test" That was "in a scientific manner" !!!

That Connally & JFK not hit by single bullet not previously connected in - only in WWH, which points the D.P. Hoffa & partners!

Life Mag "never available to the Commission"
a) Previously shown b) Sold to the [illegible]
Ramsey & "documents opened in the Archives"
The FBI & SS said no single bullet theory - published a year ago - Hope To take action
Over his conclusion "I am trying to explain now" - comes from W.W.
Life photos not published - ? and without them can't be seen ? He was told by Dag Warren who had no access to Life & based only published versions
Gris Offer is only a statement, see above
Case can be disproved without Zap film, my statement as that is
Always right
Critics have embarrassed - by speculations
Gris on Bethesda only said O. had connection with F. that's not.
O's guilt - "conflicting evidence" - can't answer
Answer to problem - that is in "testimony."
Learned from CBS what O published in PW on skull - CBS skull shows figures in skull
